

By day, he
finds inspiration
in the work
of EINSTEIN
and MOORE.

By night,
it's PICASSO
and MATISSE.

In addition to creating masterworks of technology, engineers also wield paintbrushes, acrylics, and cameras to create amazing pieces of art.

EE Times and Red Ink Studios present **EExhibition: The Fine Art of Engineers**. A first-of-its-kind art event that showcases another creative side of engineers from around the country. Proceeds from this event will benefit Red Ink Studios art-in-the-classroom programs.

A selection of the art will be featured at the Embedded Systems Conference in Silicon Valley, April 1-5, 2007.

To view this collection visit www.redinkstudios.org/eexhibition
Now accepting submissions for the next art event, EExhibition 2.0
